WHY UNCLE SAM CHOSE ROCK-

"Dry Rockford, Ill., has the reputation of buying and consuming more groceries than any other city of like population in the United States," says Frank S. Regan. "When we quit drinking we all went to eating.

"Stores that used to rent for \$50 per month now rent in best locations for \$200 to \$300 per month.

"Twenty thousand people came to Rockford before the army camp came here and they came from all over the country. The fact Rockford was dry was very often stated as the reason they came. Wet cities in this part of the state saw the handwriting on the wall and went dry themselves. The Nelson hotel which had a tar and was sore because some \$16,000 revenue was cut off when we voted prohibition, instead of going 'busted' went 'full' of guests, saw several new hotels go up in Rockford and is now building a fireproof addition to double its capacity. Plans are being drawn for other and better hotels than all of them. Grocery stores had thousands of dollars on their books as bad debts and dead-beat accounts galore when we had saloons. Now they are selling for cash instead of credit and one grocery collected \$11, 000 worth of dead-beat accounts out of a total of \$13,000 without the assistance of an attorney. Money rolled into the banks until they built a nice new bank building to house a brand-new national bank, and so it goes.

"Saloonkeepers have all settled down in other lines of business and are prospering in their new fields or are living off the increase of real estate values

"Every man and woman in America who has a son in Camp Grant is more than pleased their son is located in a dry town.

"And so is your Uncle Sam."

THE NATION PAYS THE PRICE. I.

He was twenty-one; was 5 feet 11 inches tall; weighed 165; had scarcely known a sick day; was morally clean, physically perfect; did not know the taste of intoxicating liquors; was the joy of his mother, the hope of his father, the ideal of his friends.

He volunteered. Uncle Sam received him with open arms and put him in the front line of

battle. Today he fills an unknown

II. He was twenty-one; was 5 feet 11 inches; weighed 165; was morally unclean; was physically weak; was the habitue of the saloon; drank every day and was often drunk; was the sorrow s parents; had no real friends.

He was drafted. Uncle Sam marked his unsteady eye, depraved face, whisky breath, cigarette fingers, unsteady heart, the germs of immoral disease; said, "Stand aside,

you are unfit." And he is left at home to help breed another generation,-J. K. S. in American Issue.

A STORY WITH A MORAL FOR AMERICA.

Mr. Edwards, M. P., recently stated at an assembly of the Scottish Temperance league, Glasgow, that at a recruiting meeting he was approached by a young man, who asked whether government would look after the wives and children of those who enlisted? He was assured that government would. He enlisted, and was passed on in due course to the trenches, where, after months of good service, he was wounded, and then returned home on furlough. On his way back to the front he called at the House of Commons and asked for Mr. Edwards. "He refused to shake hands with me," said that gentleman, "and asked: 'What have you done for our homes? I left a happy home-I came back to find my wife a drunkard, my children neglected, my home broken up. You expect us to put our bodies between you and your enemies, but you will not put even a trench between the drink enemy and our homes,""

PERILS OF BEER DRINKING.

It is difficult to find a beer drinker forty years of age with a normal liver, kidneys or heart. These vital organs, from the excessive burden that is thrown upon them, wear out prematurely. The beer drinker may have an abundance of flesh, but it is of inferior quality. Surgeons do not care to operate upon him, because the chances of recovery are minimized,

"Should the beer drinker be stricken down with pneumonia or some other febrile disease that taxes the heart and kidneys, he would have but three chances out of ten to make a recovery .- Dr. D. H. Kress in the Sunday School Times.

NO LOSS IN REVENUE.

The loss of liquor revenue by the enactment of a prohibition law by Newfoundland, making illegal the importation and sale of intoxicating liquor after December 31, 1016, has not resulted in a decrease in the revenues of that country. The revenue for the calendar year 1917, amounting to \$4,-442,476, was greater by \$25,807 than that for 1916, when liquors were still being imported.
